Thinking on studying with NK? Read our testimonials.....

"I've studied kinesiology with two educational facilities over the past few years. My view is that NK Institute is by far "the" leader in its field. How many can say they are an international educator? Hugo is. The encouragement and mentoring by the teachers and staff of NK is welcoming and genuinely focussed upon each individual's success. Hugo's wealth of knowledge amazes me - quantum physics, neurology, spirituality, anatomy - he really seems to be a bottomless pit of knowledge. As a middle-aged man experiencing a major life/career change, kinesiology has both helped me learn about myself and grow as an individual - mentally, physically and spiritually" ~ David, Melbourne ~
